

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Gentlemen of the House of Representatives :

Summoned by the almost unanimous voice of this House, to preside over your deliberations during the present session, I should be unjust to myself, and to you, gentlemen, if I did not confess that I feel highly gratified for this mark of your respect towards, and confidence in, me; and for it, please accept my sincere thanks and grateful acknowledgments.

I should enter on the discharge of the new and responsible duties now before me, with a degree of reluctance and with a fear that I should be unable to discharge them acceptably to you, gentlemen, had I not so often witnessed the distinguished courtesy and kindness, in cases of difficulty and embarrassment, rendered by the Representatives of Michigan, towards their presiding officer.

In my official intercourse with this House, I shall endeavor to treat every member as bearing the same high commission from the people, and equally entitled to my respect and attention, and in return, may I not expect your counsels and advice in aid of the discharge of the new duties now devolving on me.

The rules that you shall establish for the government of the House, shall, on my part, be administered with an even and impartial hand, but I need not remind you, gentlemen, how necessary it is for the good order of the House, and the dispatch of the public business,

that the rules of the House should be strictly adhered to on all occasions ; and how little the presiding officer can do, to produce so desirable an object, without the cheerful and prompt co-operation of the House itself.

Mr. Shurtz, from the committee on roads and bridges, made the following report, which was accepted:

The committee on roads and bridges, to whom was referred the memorial of the citizens of Niles, in the county of Berrien, praying for the alteration of the eighth section of the act incorporating said village, respectfully report, that they have had the same under consideration, and while they acknowledge the evil complained of by the petitioners, to exist, they are still of the opinion that legislative action, in accordance with the prayer of the petition, cannot consistently be had at this time. Under the provision of the revised statutes which requires such petitioners to give at least thirty days' notice of such petition, (as your committee are informed, has not been complied with.) While your committee entertain this view, they feel constrained, under the circumstances of the case, to report adversely to the petition, but are, nevertheless, of the opinion, that sound policy and equal justice would dictate that every class of citizens, of whatever occupation or profession, naturally look with confidence to the government they support, for protection of their rights and the encouragement due to industry and equal rights; which confidence should never be misplaced, and it is only when public good imperiously demands it. While your committee are giving these views, when such sacrifices are necessary, your committee indulge the hope that the future policy of the state in regard to its chartered privilege may be such as all shall concur in its justice, and have no cause of complaint from any portion of our fellow citizens.

All of which is respectfully submitted by your committee.

Mr. Rix, from the committee on the militia, made the following report, which was accepted and the committee discharged:

The committee on the militia, to whom was referred the petition of Capt. I. S. Love and others, composing a volunteer company in the militia of this state, known as the Napoleon artillery, praying that the sum of twenty-one dollars, paid by them for the transportation, on the Central railroad, of a piece of artillery belonging to the state, may be refunded, respectfully report:

That, having given the subject due consideration, they have arrived at the conclusion that, although they believe it to be just that every reasonable facility should be afforded by the state to the uniformed companies, both by way of transportation of their arms and of them-

selves, on the railroads belonging to the state, to and from all regular encampments intended for their improvement in discipline; and, also, that all arms belonging to the state, consigned to the charge of companies or officers, should be transported at the expense of the state to the several posts or armories;—yet they are unwilling to recommend the example of retrospective legislation, especially in an instance like the one in question, when the party in charge of the property received it on their own application, and with the knowledge that they were to defray the expense of transportation.

The allowance of the claim might lead to others of a similar nature, and occupy more time and expense in legislating upon their merits than the value even of the property in question. But, to prevent the necessity of a recurrence of this character, and render but an act of justice to the patriotism of those who volunteer, uniform and devote a portion of their time in perfecting themselves in the art of war, for the protection and defence of the commonwealth, and at their own expense, the committee will, at a future day, introduce a bill to facilitate the movements of the respective uniformed volunteer corps of the militia of this state, which shall embrace a remedy for this and other causes of complaint.

And the committee ask to be discharged from the further consideration of said petition.

The following message was received from the executive:

Section 4. This act shall take effect and be in force in ninety days from and after its passage.

And the question being on inserting section 3, it was decided in the negative, and section 4 was then withdrawn.

Mr. Porter moved to amend as follows: which motion was lost:

Strike out all after the word 'wife' in the 3d line to the word 'shall,' in the 4th line, and to add to 1st section any married woman who shall have sexual intercourse with and carnally know any man not being her husband, shall be deemed to have committed adultery and on conviction thereof shall be punished by imprisonment in the county jail, not more than one year, or by fine not exceeding one hundred dollars or by both in the discretion of the court.'

Mr. Saunders moved the previous question, which motion was not sustained.

Mr. Murphy moved to amend by striking out the words "to be guilty of felony," in the fourth line, which motion was lost.

Mr. Baldwin moved to amend by inserting between the words 'have' and "sexual" in the third line of the first section, the word "voluntary" and the same amendment in the first line of the second section, which motion was lost.

Referred to the committee on claims.

Chapel, may be allowed to construct a feeder to the Clinton and Kalamazoo canal, and receive therefor a lease of one square foot of water for twenty years, to be taken from said canal in the village of Utica. Referred to the committee on internal improvement.

REPORTS.

Mr. Vickery, from the committee on claims, to whom was referred the claims of C. W. Chapel, made the following report ; which was accepted, and the committee discharged.

That they have examined two claims of C. W. Chapel, one amounting to two hundred thirty-three dollars, and three cents, and the other to seven hundred sixty-eight dollars, and forty-five cents, both for estimates of work done on the Clinton and Kalamazoo canal, in 1841 ; that the said Chapel was the agent and assignee of Calvin C. Parks, the original contractor ; and that by an act of the legislature, approved the 15th of February, A. D., 1842, "the claim of Calvin C. Parks" supposed to be indenfical with those above described—was referred to the state treasurer, secretary of state, and auditor general, who were authorized to investigate into the merits of said claim, and, if found to be just, to endorse the amount thereof on a certain note which the state then held against said Parks. Thus it seems there is no evidence to sustain the claim of said Chapel, and the committee having jurisdiction over the matter, ask to be discharged from its further consideration.

Walker, from the committee on public lands, to whom was referred the "joint resolution authorizing the superintendent of public instruction, to issue certificates to certain persons named therein," reported the same back with an amendment, striking out the words "superintendent of public instruction," and inserting "commissioner of land office." The claim of Anthony King was referred to the board of state auditors.

The committee on education, to whom was referred certain resolutions of instruction, touching the expediency of modifying the existing laws in relation to common or primary schools, have had the same under consideration, and unanimously present the subjoined

REPORT.

The present school law may, in the opinion of your committee, be liable to many objections. Inconveniences in practice are incident to the operation of a new and complex system of instruction. Yet it is preferable to submit to temporary difficulties rather than to legislate anew on a subject in which a permanent and settled policy is as much to be consulted as correctness of principle, and propriety of detail. The only change which appears to be called for, is in the basis of classification where parity of age, and not advancement in knowl-

edge, has been unfortunately adopted. To remedy this objection, I am instructed to report the accompanying bill, which embraces the only change which the committee have thought it advisable to recommend to the action of this House.

By Mr. Ferguson, of Jason H. Macomber, and sixty other inhabitants of the county of Clinton, for the improvement of Grand River. Referred to the select committee on that subject.

REPORTS.

Mr. Vickery, from the committee on claims, reported back sundry claims, which had been referred to that committee, and recommended that they be allowed. The report was accepted, and the claims referred to the committee on ways and means, to be incorporated in the appropriation bill.

Mr. H. N. Walker, from the committee on public lands, made the following report, accompanied by a bill:

The committee on public lands, to whom was referred so much of the governor's message as relates to the public lands, together with the annual report of the commissioner of the state land office, have had the same under consideration and beg leave to submit the following report:

That they have carefully as they believe, examined the whole subject, and have found the existing laws relating to our public lands, vague, uncertain and in many respects extremely defective. That to remedy all existing difficulties, and more effectually guard and protect the interests of the state, they deem it absolutely necessary that all the laws now in force, relating to our public lands, and the disposition or sale of the same, should be revised, and important alterations made therein. For the purpose of accomplishing this, your committee have prepared the accompanying bill which they respectfully beg leave to report.

The "bill to establish a land office; to prescribe and regulate the disposition of the public lands, and for other purposes" was read twice referred to the committee of the whole, and ordered to be printed.

Mr. H. N. Walker, from the committee on public lands, to whom was referred the petition of David W. Howell, for compensation for improvements made on university lands," reported the same back, and stated that in the opinion of the committee the prayer of the petition ought not to be granted.

The report was accepted and the committee discharged.

Also, from the same committee, to whom was referred the memorial of the board of regents relating to the leasing the female seminary lot to the state, reported that in their opinion the lot in question should be owned by the state, if the termination of the central railroad in the city of Detroit is not changed. In such case your committee would recommend the passage of a joint resolution granting the power to the board of regents to transfer the same on the conditions set forth in the memorial, but as this depends upon the division of the question of termination of the road, your committee would suggest that the memorial be referred to the committee having charge of that subject, and would beg leave to be discharged from the further consideration of the same.

The report was accepted and the memorial was referred to the committee on internal improvement.

Also, from the same committee; to whom was referred the petition of Loren Andrus, relating to a pre-emption to certain salt spring lands reported that in their opinion it is inexpedient to pass any law on this subject at the present time, and the committee ask leave to be discharged from the further consideration of the same.

The report was accepted and the committee discharged.

Also, from the same committee, to whom was referred the memorial of James Parker, report that in their opinion the prayer of the petition should be granted, and recommended the passage of the joint resolution heretofore reported.

The report was accepted, and the "joint resolution authorizing the superintendent of public instruction to issue certificates to certain persons therein named," was referred to the committee of the whole.

Mr. Shurtz, from the committee on roads and bridges, made the following report, which was accepted, and the committee discharged.

The committee on roads and bridges, to whom was referred a petition of sundry inhabitants of Van Buren county, praying for an appropriation on a state road from Schoolcraft to St Joseph," respectfully report,

That they have had the same under consideration, and believe, as the petitioners do, that a state road, such as petitioned for, would be highly beneficial to the people in that vicinity; but the committee are entirely ignorant of any surplus funds in the state treasury, which would furnish an appropriation therefor.

The committee are consequently compelled, from this single point of view, and without alledging other reasons, to report adversely to the prayer of said petition, and respectfully ask to be discharged from further consideration thereof.

Mr. Ferguson, from the select committee appointed for that purpose, made the following report :

The select committee, appointed under the resolution to investigate the situation of the lumber and timber furnished and paid for by the state, for the use of the Saginaw canal, respectfully report,

That they have had the same under consideration, and that the following amount of materials were furnished for the use of said canal:

July 9, 1838. 2,866 feet timber furnished and framed

	for locks, at 10 cents per foot,	\$286 60
	2,800 feet timber at 6 cents per foot,	168 00
	28,314 feet plank, (board measure,) at 10 cents per foot,	283 14
	Cost of delivering the same on the work,	94 38
	6,752 feet timber for dam, at 5½ cents,	371 91
	1,800 do. do 3 do ,	54 00
Feb. 7, 1839.	11,000 feet timber at 6 cents,	666 00
25,	1,752 feet lumber for lock house and office for engineer department, at \$12,	21 02
		<hr/> \$1,945 05

Your committee are informed that a large proportion of the above has been taken and used for other purposes than the canal,

Therefore, they would recommend the following resolution :

Resolved, By the Senate and House of Representatives of the State of Michigan, That the board of internal improvement be directed to inquire into the situation of the timber and other materials furnished for the construction of the Saginaw canal, and if any of said timber or materials are found, to take measures to dispose of, or preserve the same. Also, if any part, or all of the said timber, or other materials shall be missing, or taken away, that they take immediate measures (if the nature of the case shall require,) to recover the same or its value.

The joint resolution was read twice and referred to the committee of the whole.

The committee on claims, to whom were referred several memorials, asking the legislature to repair the loss of those whose property

was destroyed by the fire in one of the workshops of the state prison, sometime in July or August last, ask leave to report:

That they have given to this subject their serious consideration. From the information they have collected, it appears that the workshop, in which the wool and other property were consumed, was, at the time, in the actual possession of A. Walcott, who held it by a lease for a term of time, from the agent of the prison or state; and that the fire, and consequent destruction of the wool and other articles for which damages are claimed, resulted from the wanton and deliberate act of one of the convicts belonging to the penitentiary, and then in the service of the said Walcott, who had contracted for his labor pursuant to a law, approved February, 1842. Your committee are of the opinion that the state cannot be held accountable for the conduct of those for whom it has no direct control; and that the legislature, by granting the prayer of the memorialists, would travel out of its legitimate sphere, and introduce a dangerous example. The committee, therefore, are constrained to report *adversely*, and ask to be discharged from the further consideration of this subject.

REPORTS.

Mr. Livermore, from the committee on the state prison, made the following report, accompanied by a bill:

The committee on state prison, to whom was referred so much of the governor's message as relates to the state prison, and to whom reference is made of the annual report of the board of inspectors of the state prison, and also to whom reference is made of several petitions relative to mechanical labor in the state prison, have had the same under consideration, and report:

That on examination of the several references, they find that the subject of convict labor in the penitentiary has occupied, more or less, the attention of them all. The inspectors of the state prison, in their report, and also the governor in his message recommends and suggests the propriety of establishing by law at this session of the legislature, a prison discipline, relative to mechanical labor, by giving it such direction as will prevent competition between convict and free labor. The inspectors of the prison anticipate the time, when the number of prisoners are increased, under the present system, that

convict labor will be unequal and ruinous in its effects upon the honest and industrious mechanic.

The petitions of the mechanics that were referred to your committee, set forth that although the prison institute relative to mechanical labor, is but in its infancy, its effects at the present time, upon the mechanics in the vicinity of the prison, are seriously felt, and very oppressive.

Your committee, on a careful examination of the subject, have arrived at the conclusion that it would be just and right for the legislature at its present session, to establish by law, a system that will remove the present objections. It is admitted that labor is an essential part of the most approved system of prison discipline, and is important to the state in a financial point of view, yet your committee believe that a system may be adopted, that will protect the rights and interests of the honest and industrious mechanic, and that will be consistent with the interest of the state. Your committee, for the purpose of carrying out their views more fully, herewith submit a bill.

The report was accepted, and the committee discharged, and the "bill in relation to convict labor in the state prison," was read twice, referred to the committee of the whole, and ordered printed.

Mr. Pratt, from the committee on enrollment and engrossment, reported the "act to extend the time for the collection of taxes, in the counties of Genesee, Clinton, Shiawassee, Kent, Lapeer, and St. Clair, for the year 1843," as correctly enrolled, and that the same was this day presented to the Governor for his approval.

Also, reported as correctly engrossed the "bill to amend chapter 6, title 2, part 4th, of the revised statutes," and the "joint resolution instructing our senators, and requesting our representatives in congress, relative to a modification of the present tariff law."

Mr. Baldwin, from the committee on the organization of towns and counties, reported back the "bill to attach the county of Huron to the county of St. Clair, for judicial and other purposes," and recommended that the same be not passed. The report was accepted, and the bill referred to the committee of the whole.

Mr. Livermore, from the committee appointed for that purpose introduced a bill to amend an act entitled an act to incorporate the vil-

lage of Jackson, which was read twice, referred to the committee on banks and incorporations, and ordered printed.

Mr. Tillson, from the select committee, appointed for that purpose, introduced a bill in addition to an act to alter, lay out and establish certain state roads therein mentioned, which was read twice and referred to the committee on roads and bridges.

The Speaker announced a communication from the attorney general, relative to the Michigan Insurance Company, which, on motion of Mr. McLeod, was laid on the table and ordered printed.

The following communication was received from the Executive :

On motion of Mr. Pratt, the bill making appropriations on the Central railroad was taken from the table, and made the special order for January 31st.

Mr. D. C. Walker, from the committee on ways and means, reported back sundry claims, referred to that committee to be incorporated in the general appropriation bill, and moved to refer the same to the committee on claims; which motion prevailed.

Mr. Pratt, from the committee on engrossment and enrollment,

reported as correctly enrolled, "a joint resolution relative to timber and other materials furnished for the construction of the Saginaw canal," and that the same was this day presented to the governor for his approval.

Mr. H. N. Walker made the following report:

The select committee to whom was referred the petition of E. B. Harrington in regard to the publication of the decisions of the supreme court and court of chancery respectfully report :

That they have had the matter so referred under consideration, and have bestowed considerable attention to the same.

Your committee are satisfied that these decisions form an important part of the law of the land and require publication. That they establish important legal principles, interpret constitutional provisions and give construction to the laws which are essential and necessary to be understood by the people and to secure the due administration of justice.

It is for the legislature to enact, and for the courts to explain, give effect to the laws. Without the acts of the legislature, courts would be of but little use, without courts to execute and give effect to those acts, they would remain a dead letter.

In the course of proceedings in courts of justice, questions almost daily arise as to how far the common law is applicable, and how far the same has been abridged or is controlled by constitutional provisions and legislative enactments, also in regard to conflicting provisions of statutes, their legal effects and applicability to the almost unlimited variety of questions which arise.

All these matters are for courts to harmonize and explain, and it is due to the parties litigate as well as to the people, for whose benefit and protection, and at whose expense the judiciary is established and maintained that the opinions upon which these decisions of the courts are founded, should be written out in plain and intelligible language, and that the reasons for such decisions should be set forth and published to the world.

By requiring of the judges of these courts, written opinions upon the various questions passed upon by them, due attention to, and examination of the questions presented, are secured, and these decisions and the reasons upon which they are based, set forth in the opinion

of the court, form a guide, and precedent for subsequent decisions of similar questions in all the courts of the state, and in regard to questions and construction of statutes affecting real estate, they are regarded by the circuit court of the United States for the district as the guide and precedent for decision in that court.

These decisions, and the reasoning upon which they are based tend to establish uniformity in practice and certainty in legal proceedings; they materially aid legislation in pointing out discrepencies, incongruities and defects, in the laws, and when published, they enable the people to judge of the fitness, the capability and capacity of the men forming the judiciary to discharge the high and important duties which devolve upon that department of the government.

The third article of the constitution of this state provides "that the powers of the government shall be divided in three distinct departments; the legislative, the executive and the judicial, and that one of these departments shall never exercise the powers of the other.

In order to preserve and protect the right secured to the people by the provision of the constitution, and to guard against encroachments by the judiciary upon other departments, and the assumption of powers which do not belong to them, your committee conceive it equally as essential that their proceedings be published as the proceedings of the legislative department. Indeed, the decisions and opinions of the superior courts have ever been regarded as forming such an important part of the law of the land, that it has been one of the first objects of every state in the Union to provide for their publication.

In 1838, a provision was introduced into the revised statutes of this state requiring the judge of the supreme court, and the chancellor to appoint a reporter, and that they should communicate in writing to the reporter their opinions and decisions, upon all matters to be reported, and the reporter was required to publish the same annually; the several cases more or less, at large, according to their relative importance, so as not unnecessarily to increase the size or number of reports.

In 1839, the petitioner was appointed reporter, and in the winter of 1840 and 1841, published all the cases in chancery, up to January 1, 1841, at an expense of \$831.43. This bill for printing, the legislature refused to allow, and your committee think there is some

doubt whether under the provisions of the statute it is legally chargeable to the state.

The statute requires the reporter to publish these reports annually but does not provide at whose expense the same shall be published, and the reporter having refused to publish these reports at his own expense, the legislature suspended his salary.

By an act of the legislature at the last session, it is made the duty of each of the judges of the supreme court to whom any matter may be submitted to pronounce an opinion thereon and prepare an abstract of such opinion in writing embracing the legal points upon which a decision is made and on or before the first Monday of January in each year, to cause all such abstracts to be filed with the secretary of state, and that such opinions should be published in one of the newspapers printed in each of the several districts where such courts are held respectively and paid for by the state.

The provisions of this act have never been complied with, and your committee are satisfied that they never can be with any benefit or advantage to the state. The cost of publication in this form would be equally as much if not more than the cost of publication in the ordinary form. Again the publication of an abstract of an opinion of the court without the statement of the case, and without the care and attention of a proper and competent person to correct the proof, would be of no more authority in legal proceedings than any other article found inserted in a newspaper would be evidence of the facts therein contained, and your committee consider such publication as a useless expenditure.

The reporter has continued to discharge the duties of his office (except publishing the reports) since the salary was suspended up to the present time, and has now sufficient manuscripts, being opinions delivered by the supreme court, part of which is prepared for the press, to make a volume of about six hundred pages, and has sufficient manuscript consisting of the opinions of the court of chancery which is prepared for publication to complete the volume of chancery reports already commenced.

These two volumes would embrace all the decisions of the supreme court and court of chancery, of sufficient importance to report from the organization of the state government down to the present time.

It has been proved before your committee, that a provision was contained in the second section to the general appropriation act of last winter, requiring the auditor general, state treasurer and secretary of state to settle with the petitioner, pay for the publication of the reports which have been published, and that none of the said second section is contained in the printed laws of 1843. And the original bill as it passed both branches of the legislature is not to be found in the office of secretary of state.

Your committee think it no more than just that the state should pay for the publication of the reports which have already been published and pay the reporter a reasonable compensation for the services by him performed, and your committee respectfully recommend the continuance of the publication of said reports, under the provisions of the revised statutes and at the expense of the state, and for the purpose of carrying out the recommendation contained in this report, your committee beg leave to bring in a bill which is herewith submitted.

The report was accepted, and the committee discharged, and the "bill to provide for the report of the decisions of the supreme court, and the court of chancery, was read twice, referred to the committee of the whole, and ordered to be printed.

On motion of Mr. M. Hall,

Mr. Baldwin from the committee on the organization of towns and counties, to whom was referred a petition for, and a remonstrance against, the division of the township of Bronson, reported adverse to such division.

The report was accepted and the committee discharged.

Also, from the same committee, to whom was referred back the petition of inhabitants of the township of Keeler, with instructions to give reasons for reporting adverse to the prayer of the petition submitted the following report which was accepted, and the committee discharged.

The committee on the organization of towns and counties, to whom was referred back the petition of sundry inhabitants, to change the name of the township of Keeler, in the county of VanBuren, with directions to give their reasons for reporting adversely, respectfully report:

That the committee have had the matter under consideration, and recommend that the contemplated change be not made. Your committee have had nothing before them, showing that the citizens of the township of Keeler desire such a change. A petition has been presented to the committee, signed by thirty individuals. The petition is in the following words:

"To the Honorable, the Legislature of the State of Michigan : We, the undersigned, do earnestly solicit your honorable body to change

the name of the township of Keeler, and call it Sparta. (Please pardon the shortness of this petition,) for in the above is embodied our unanimous feelings. Dated Keeler, December 27, 1843."

The above is all that the committee have had before them, to direct them as to the wishes of any portion of the citizens of that vicinity in relation to the change of the name of the township of Keeler. Independent of any other facts, and relying upon the foregoing petition, the committee could not recommend a change. The petition does not set forth whether the names affixed to the same, are legal voters of the township of Keeler, or in fact, citizens of the state. It simply states that they desire the change, and that "all their unanimous feelings are embodied in the petition." In all cases, where a change is absolutely necessary, your committee would cheerfully unite with any portion of their fellow citizens in effecting the same. In this case, no reason is set forth, no hardships enumerated, or benefits anticipated, by the proposed alteration.

Your committee also believe, that a greater portion of the inhabitants of that township, were ignorant of the petition at the time of its presentation to this House. It bears date December 27, 1843, five days previous to the commencement of this session.

The township of Keeler, your committee are informed, contains a post-office of the same name. The town is also known by the present name, and your committee believe that it would cause a great derangement in their local matters if the change should take place. The name of a township is of little consequence, provided there be but one of a like name in the state. When a town is organized, and its name has become engrafted with it, the latter should not be altered without cogent reasons for so doing. In the case before us, no such reasons have been presented, and your committee are unanimously of opinion, that no alteration should be made; all of which is respectfully submitted.

Resolved, That the committee on federal relations be requested to report to the House, as soon as practicable, the propriety of providing by law for the distribution of the session laws of congress, among the several towns of this state, provided there is no such law: if there is already such a law, the reason that said laws of congress have not been distributed; ask leave to report:

That they called upon the secretary of state with a view of learning what number of the "session laws of congress" were forwarded to the state department, and they were informed, that from three to six copies were received annually, and that those copies were required for the state library, and the various departments of state. It therefore, became unnecessary for your committee to report to this House upon "the propriety of providing by law for the distribution of the session laws of congress among the several towns of this state," or to ascertain whether such a law did already exist, for the simple reason, that the state had no session laws of congress to distribute.

Your committee therefore ask to be discharged from the further consideration of the resolution.

So the House stands adjourned till ten o'clock on Monday morning.

Monday, February 5, 1844.

The House met pursuant to adjournment, and on calling the roll, Mr. Murphy was absent.

Prayer by Rev. Mr. Harrison.

The journal of Saturday was read and corrected.

PETITIONS.

By Mr. Joslin, of H. R. Shetterly, and 25 other citizens of Washenaw county, for the abolition of capital punishment. Referred to the select committee on that subject.

By Mr. McLeod, of thirty-six chiefs and head men of the Ottawa Indians, praying the legislature to take some action to secure to them the rights of citizenship. Referred to the committee on federal relations.

On motion of Mr. Joslin, 250 extra copies of the petition were ordered printed.

By Mr. Shurtz, of E. Kellogg, and 59 others, of the township of Wakeman, St. Joseph county, for changing the name of said township. Referred to the committee on the organization of towns and counties.

By Mr. Ramsdell, of E. C. Clark, of Ann Arbor, and 12 others, for an act of incorporation of the Alphidelphia association. Referred to the committee on banks and incorporations.

By Mr. D. C. Walker, of Lyman Selleck, that power be given to Samuel H. Ewell, executor of Samuel Ewell, deceased, to convey certain lands. Referred to the committee on the judiciary.

By Mr. Schoolcraft, the claim of H. N. Strong, for services in investigation of the five million loan. Referred to the committee on claims.

REPORTS.

Mr. Baldwin, from the committee on the organization of towns and counties, made the following report, which was accepted, and the committee discharged:

The committee on towns and counties, to whom was referred the petition of William C. Hoyt and 100 others, for the division of the counties of Oakland and Livingston, and the formation of a new county, have instructed me to report:

That the committee have had the matter under consideration, and deem a compliance with the same inexpedient. The two counties proposed to be divided contain a population of over 35,000 inhabitants. The petition had only 100 signatures to it, and your committee do not believe themselves authorized to act in the premises, when there is so great a disproportion between the petitioners and the persons affected. Other reasons, appearing on the face of the petition, might be set forth, inducing your committee to report adversely to the same, but they do not consider it necessary. All of which is respectfully submitted.

Mr. Ramsdell, from the committee on the judiciary, made the following report, which was accepted, and the committee discharged:

The committee to whom was referred the petition of Ebenezer Benham and others, have according to order had the same consideration, and have directed me to submit the following report:

The petitioners pray for the passage of a law compelling every person of color to give a bond, with two freehold securities, to entitle them to a residence in this state.

In the opinion of your committee such a law would be most unjustly oppressive to a race of men, whose ancestors were, by the accursed slave trade, forced into the country, and whose condition is already rendered sufficiently unhappy by the wrongs and oppressions which have been heaped upon them by the American people. The committee would therefore rather recommend to their fellow-citizens the extension of the justice and Christian sympathy to this class of persons, which their wrongs and misfortune, as well as common humanity, demand.

Also, from the same committee, made the following report, which was accepted, and the committee discharged:

The committee to whom was referred a "bill to amend 'an act to provide for the organization of courts of special sessions, and to define their powers and duties,'" have had the same under consideration, and directed me to report the same back without amendment, and recommend that it be not passed.

This bill provides that if the accused shall request to be tried by a court of special sessions, he shall, at the same time, elect whether he will be tried with or without a jury, and if he elect to be tried by a jury, it shall be an election to be tried by a jury of six men. By this provision, the person accused is compelled to be tried by a jury of six men, or he is deprived of any jury, which in the opinion of your committee, is unconstitutional.

By the 10th section of the 1st article of the constitution, it is declared that, "in all criminal prosecutions, the accused shall have the right to a speedy and public trial, by an impartial jury of the vicinage." A jury is defined by Coke and Blackstone, to consist of twelve men, and this common law definition of a jury is adopted by the constitution. Which is respectfully submitted.

The "bill to amend an act to provide for the organization of courts of special sessions, and to define their powers and duties," was referred to the committee of the whole.

Mr. Ramsdell, from the judiciary committee, to whom was referred the "bill to amend section 1, chapter 1, title 2, part 2d, of the revised statutes, relative to the descent of real estate," reported the same back and recommended that it be not passed.

The report was accepted, the committee discharged, and the bill referred to the committee of the whole.

Mr. Ramsdell, from the same committee, also made a verbal report, which the Speaker decided could not be entertained under the resolution adopted by the House on Tuesday.

Mr. Ramsdell appealed from the decision of the Speaker, when the decision of the chair was sustained by the House.

Mr. Ramsdell, from the committee on the judiciary, to whom was referred the petition of Albert Crane, asking an amendment to the "act relative to certain suits in ejectment," reported adversely to the prayer of said petition, for the reason that the subject is already provided for by law.

The following message was received from the Senate:

The House met pursuant to adjournment and on calling the roll Mr. Baldwin was absent on leave.

Prayer by the Rev. Mr. Harrison.

The journal of yesterday was read and corrected.

Mr. Runyan stated that in the journal, his name appeared recorded among the yeas on the question of reconsidering the vote by which the bill making appropriation on the central railroad was indefinitely postponed, while in fact he voted in the negative.

On motion of Mr. H. L. Miller, the clerk was directed to enter the above statement on the journal:

PETITIONS.

By Mr. Joslin, of W. H. Edey, and others, for the change of the name of the village of Mooreville to York. Referred to the committee on the organization of towns and counties.

Also, the claim of James Sanders, for stove furniture lost on the railroad. Referred to the committee on claims.

REPORTS.

Mr. Pratt, from the committee on engrossment and enrollment, reported as correctly engrossed the "joint resolution rescinding, in part, a joint resolution prohibiting new contracts on public works."

Also, from the same committee, reported the "bill to amend an act entitled an act authorizing William W. Bliss, administrator of Hervey Bliss, deceased, to convey certain real estate, approved February 22, 1843," as correctly enrolled, and that the same was this day presented to the governor for his approval.

Mr. Ramsdell, from the committee on the judiciary, made the following report, which was accepted and the committee discharged:

The committee, to whom was referred the petition of George Stedman and others, have, according to order, had the same under consideration, and directed me to submit the following report:

The petitioners pray for the passage of an act prohibiting all persons from recovering any thing for damage done to their crops by cattle, sheep, horses or swine, in case their crops are not kept enclosed by a lawful fence. A bill, similar to the law prayed for, has, during the present session of the legislature, been introduced and lost in the House of Representatives; and the committee have, therefore, instructed me to report that no legislation on the subject is necessary.

Also, from the same committee, to whom was referred the "bill to provide for the payment of entry, judgment and jury fees, and to prescribe the compensation to be paid to jurors in courts of record, and justices courts," reported the same back with the following amendments, which were concurred in:

Amend section five, by adding to said section the following:

"And in each case of forcible entry and detainer, or forcible detainer, and in every case of unlawfully holding any lands or tenements or land or tenement, each juror shall receive the sum of twenty-five cents, which shall be paid by the complainant before the jury shall render their verdict, and taxed in the costs of the proceedings."

Substitute the following for section eight:

"That section two of an act entitled 'an act to provide for the issuing and return of venires, the payment of jurors, appointment of circuit court commissioners and for other purposes,' approved March 9, 1846, and sections twenty and twenty-three of an act entitled 'an act to regulate and prescribe the amount of fees,' approved April 1, 1840,

and so much of section twenty-four of an act entitled 'an act to provide for the organization of courts of special sessions and to define their powers and duties,' approved March 19, 1840, as relates to fees of jurors; and an act entitled 'an act to amend chapter five, title three, part three of the revised statutes, entitled, 'of forcible entry and detainer,' " approved February 15, 1842; and so much of any other act or law now in force, as provides for the payment of jurors or the fees in this act provided for, or as is inconsistent with or contravenes the provisions of this act, be, and the same are hereby repealed."

Also, from the same committee, made the following report, which was accepted and the committee discharged :

The committee to whom was referred the petition of Leonard Starkweather and others, have, according to order, had the same under consideration, and directed me to report adverse to the prayer of the petition.

Your committee have no evidence before them, other than this petition, evincing a wish on the part of any of the people, to have the laws mentioned in the petition, abolished. These laws are of long standing; the business transactions of the state have been made to conform to them, and your committee believe that unless there is a general and urgent call for their repeal, they should be suffered to remain.

Mr. McLeod, from the committee on education, made the following report, which was accepted and the committee discharged :

The committee on education, to whom was referred the petition of Benjamin Bangs and thirty-five others, citizens of Livingston county, praying the legislature to amend the law relative to primary or common schools, ask leave to report.

The object which the petitioners desire to attain is, such a modification of the present school law as will enable them, after appropriating the public moneys, to supply deficiencies in the payment of teachers, by a tax on the property of the residents of the district.

The reasons urged by the petitioners in support of their prayer, are plausible and, in the main, correct; but your committee are unwilling to advise the alteration proposed by the petitioners.

The present law relative to common or primary schools, is, as yet, an experiment. It was matured with much pains and after a protract-

ed and tedious debate, at the last session of the legislature. It is complex in its details, and requires time and observation to test its feasibility.

Your committee are of opinion that less injury will be done by suffering the law to remain, for the present, unamended, than by the temporary and local inconveniences which are incident to the first workings of every educational system, and which time and experience can alone obviate.

Your committee therefore report adversely to the prayer of the petitioners.

Mr. Murphy, from the committee on banks and incorporations, to whom have been referred sundry petitions for the incorporation of the Alphadelphia association, submitted a report and letter from H. R. Shetterly, accompanied by a bill to incorporate the Alphadelphia association.

The bill was read twice, referred to the committee of the whole, and ordered printed.

On motion of Mr. Pratt, 500 copies of the report and letter were ordered printed.

The report was accepted, and the "joint resolution relative to the reduction of the present rates of postage," was read twice, referred to the committee of the whole, and ordered printed.

Mr. Murphy, from the committee on banks and incorporations, made the following report:

The committee on banks and incorporations, to whom was referred a "bill entitled an act to amend an act entitled an act to incorporate the village of Adrian, approved March 7, 1843," report that they have had the same under consideration, and recommend its passage.

The committee on public lands have had under consideration the petition of Moses Finch, and report that it appears from such petition that Moses Finch holds possession of the lands under the act of March 25, 1840, entitled "an act to provide for the sale of certain lands to the settlers thereon, and for other purposes;" that from his own statements, your committee are convinced that he has abused the privileges granted to him under said act, and they can see no reason why a special law should be passed for the benefit of the petitioner.

Also, from the same committee, to whom was referred two petitions of citizens of Eaton county, for laying out a state road and for altering the Clinton road, reported "a bill to provide for laying out a state road and for other purposes;" which was read twice, referred to the committee of the whole and ordered printed.

REPORTS.

Mr. Videto, from the committee on agriculture and manufactures, to whom was referred the Senate bill for the encouragement of agriculture, reported the same back without amendment and recommended its passage.

The report was accepted and the bill referred to the committee of the whole.

Mr. Ramsdell, from the committee on the judiciary, reported "a bill to attach the counties of Kent and Ottawa to the third judicial circuit of the supreme court," which was read twice, referred to the committee of the whole and ordered printed.

Mr. Vickery, from the committee on claims, made the following report, which was accepted, and the committee discharged:

The committee on claims, to whom was referred the claims of sundry officers of the militia, for services on a brigade court martial, for the trial of captains Beard and Redmon; respectfully report:

That they have duly considered the same, and not being informed at what time, or in what place the said court martial assembled, and being also ignorant of any law requiring the state to pay for such services, have instructed me to report the said claims back to the House, and ask to be discharged from any further consideration of the same.

Also, from the same committee, made the following report, which was accepted and the committee discharged:

The committee on claims have had under consideration the petition of Thomas Martin, from which it appears, that, in November, 1839, he contracted to finish sections 3, 5 and 14, on the 4th division of the central railroad; and that the estimates, according to the statement of Robert H. Murray, accompanying said petition, amounted in the whole, to \$11,595 43-100, which he received at different periods in Michigan Bank paper. The petitioner avers that he repeatedly objected to that kind of money, but was told by Mr. Thompson, acting commissioner that he must take such, because he had nothing else to pay. The petitioner further sets forth that the market value of said paper, during the period in which the payments were made, was only 87½ cents on the dollar; and he therefore claims 12½ per cent on the entire sum, as damages, that being the difference between the current and nominal worth of it at that time.

Your committee believe that Mr. Martin, by accepting payment, though in depreciated funds, forfeited his claim to damages, and therefore ask to be discharged from the further consideration of the subject.

Mr. Pratt, from the committee on engrossment and enrollment, reported as correctly engrossed, the "bill to amend an act entitled an act to incorporate the city of Monroe," the "bill to amend an act providing for the final adjustment of all unsettled claims for damages, growing out the internal improvements of this state;" the "bill to lay out and establish a state road from Tuscola in the county of Tuscola, to Lower Saginaw," and a "bill making appropriations for extra expenses incurred by the adjutant general."

Mr. Ramsdell, from the committee on the judiciary, to whom was referred the Senate "bill for the re-organization of the trustees of certain societies of the methodist episcopal church," with an amendment, in which the concurrence of the House was asked.

The report was accepted, and the bill and amendment referred to the committee of the whole.

Also, from the same committee, made the following report, which was accepted, and the committee discharged.

The committee to whom was referred a "bill to amend title 4, part 3, chapter 4, of the revised statutes, relative to reversal and arrest of judgments," have had the same under consideration, and directed me to report the same back without amendment and recommend that it be not passed.

The bill proposes to extend the time for bringing writs of error, for the reversal of judgments, from two to four years.

Your committee can conceive of no possible reason for this change of the law. Parties or their attorneys almost universally know, at the time of the trial whether any error is committed by the court on the trial, or by the party in bringing his action, and if any error in either, which affects the merits of the cause, it is immediately taken advantage of. It is important for litigant parties to know as soon as possible that their legal rights are definitely settled, and that the records of the courts should furnish certain evidence what their rights are. Errors in substance will rarely if ever be suffered long to remain unnoticed. But your committee fear, that if the time as is proposed by this bill should be extended, it would tend to induce suitors, craftily to permit technical errors to pass unnoticed at the time of the trial, for the purpose of afterwards taking advantage of them, in order to compel the opposite party to submit to unequal terms rather than to have the proceedings reversed, and be compelled to pay costs.

The "bill to amend title 4, part 3, chapter 4, of the revised statutes, relative to reversal and arrest of judgment" was referred to the committee of the whole.

Mr. Pratt, from the committee on enrollment and engrossment, reported as correctly engrossed the "bill to incorporate the Detroit and Birmingham plank road company."

Mr. Videto, from the select committee appointed for that purpose, reported "a bill relative to the streets of recorded but unincorporated

village plats," which was read twice, referred to the committee of the whole and ordered printed.

MOTIONS, RESOLUTIONS, AND NOTICES.

Mr. Joslin offered "a joint resolution in relation to the tariff on railroad iron," which was read twice and referred to the committee of the whole.

Mr. M. Hall gave notice that, on to-morrow, he should ask leave to introduce a bill to lay out and establish a state road from the village of Battle Creek, in the county of Calhoun, to the village of Schoolcraft, in the county of Kalamazoo.

Mr. Pratt, pursuant to previous notice, asked and obtained leave to introduce "a bill to amend 'an act for the relief of certain settlers on university land in the county of Oakland,' approved March 9, 1843," and Messrs. Pratt, M. Hall and Mosher, were appointed a committee to bring in the bill.

Mr. Van Husan, in pursuance of previous notice, asked and obtained leave to introduce "a bill to amend an act entitled 'an act to amend section three of an act entitled an act to repeal a part of chapter eight, title five, part first of the revised statutes and for other purposes,' approved February 17, 1842," and Messrs. Van Husan, McLeod and Sheldon, were appointed a committee to bring in the bill.

On motion of Mr. Ramsdell, Thomas Martin had leave to withdraw his claim.

Mr. P. Power gave notice that, at some future day, he should ask leave to introduce a bill to incorporate the Utica female seminary.

On motion of Mr. Joslin,

The claim of C. W. Chapel was taken from the table and referred to the committee on internal improvement.

By Mr. H. N. Walker, of J. H. Morris, relative to the railroad from Brest to Monroe. Referred to the committee on internal improvement.

REPORTS.

Mr. Vickery made the following reports, which were accepted and the committee discharged:

The committee on claims have had under consideration the claim of R. W. Ingals, for printing military, brigade and regimental orders, and finding no law recognizing the obligation of the state to pay for such service, and being furnished with no evidence that the printing

was done, have instructed me to report adversely, and ask to be discharged.

The committee on claims, to whom was referred the petition of Porter Kibbee, respectfully report :

It appears from the documents accompanying this claim, that John Stockton, in the latter part of the year 1839, was requested by Levi Humphrey, then acting commissioner, to superintend the works on the Clinton and Kalamazoo canal, during the absence of the latter to the city of New York; and that the services of said Stockton were estimated, by a majority of the board of internal improvement, at \$333 33, but afterwards rejected by Mr. Conant, the successor of Messrs. Humphrey and Thompson, upon the testimony of Alvin Turcotte, an engineer at that time in the employ of the state. It further appears that this claim was again investigated by the board of state auditors, in September last, and disallowed.

Your committee are therefore compelled to report adversely to the claim of Mr. Kibbee, the assignee of the said Stockton; not only for the reasons above stated, but because the commissioner, Mr. H., had no authority to create a deputy or superintendent, at the expense of the state, the especial trust reposed in him not being transferable.

All which is respectfully submitted, and the committee ask to be discharged.

The committee on claims have had under consideration the demand of one Thomas McClelland, for the balance due him for painting the portrait of Gov. Cass, and for which "he has never received over one hundred and thirty dollars."

The history of this case : In the year 1831, previous to the appointment of the Governor to the War Department, by Gen. Jackson—(a very important circumstance in the right adjustment of this claim,) the legislative council appropriated thirty dollars for a *small* picture of Gov. Cass, to be hung in the library of the state house. But a number of his *particular friends*, Messrs. Hastings, Trowbridge, Larned and others, "thinking this rather small business," engaged Mr. McClelland to draw a *full length* portrait of the Governor, worth three hundred dollars. A few months after, the council appropriated the further sum of one hundred dollars. The difference between one hundred and thirty dollars, the sum appropriated, and

three hundred dollars, the amount agreed to be given for this painting by the *particular friends*, is one hundred and seventy dollars; and this sum, at seven per cent interest, amounts, in thirteen years, to three hundred and twenty-four dollars and seventy cents, the *balance* claimed to be due.

Now, the question to be decided is, whether the state which did *not*, or the particular friends who *did*, agree to pay the three hundred dollars, shall be held responsible for this demand. The committee, unwilling to hazard an opinion upon the legal question evidently involved, have instructed their chairman to report this matter back, and ask it reference to the committee on the judiciary.

The committee on claims, to whom was referred the petition of Geo. G. Davis, report:

That, from his memorial, it seems he contracted, in 1841, to build the superstructure on the seventh section of the fifth division of the Central railroad; that he was to be paid in state scrip at the end of every month, upon the estimate of the engineer, and that of the \$2,700, or about that sum, which his estimates amounted to, he received only \$800 dollars during the period he was engaged in executing his contract. Not being able to obtain the balance when due, for want of appropriate funds in the treasury, he pledged his estimates to procure necessities, and they were sold below their market value, by which he lost, according to his own statement, about \$1,100, which is the amount claimed as damages.

That individuals holding obligations against the state, may dispose of them at pleasure and on such terms as they think proper, will not be denied; but, that the losses which may occasionally be the result of this traffic, are to be remunerated from the public purse, is a doctrine that your committee are not *altogether* prepared to acknowledge, and they beg to be discharged from the consideration of the subject.

The petitioner also claims damages for the non-fulfilment, on the part of the state, of a wood contract, made between himself and Daniel B. Brown, in 1841; but the testimony being insufficient to enable the committee to decide, ask to be discharged from this also.

The committee on claims, to whom has been referred the claim of Daniel Thurston for damages to his farm, situate in the township of Clinton, Macomb county, occasioned by the construction of the Clin-

ron and Kalamazoo canal across the same, and by the construction of the new dam across the Clinton river, report:

That, by an act of the legislature, approved March 8, 1843, this, as well as all other claims for damages arising from the construction of works of internal improvement, prior to the 1st April, 1842, was very properly referred to the board of state auditors, who, in September last, after a thorough examination of both sides of the subject, passed a resolution expressing the conditions of a settlement, with which the said Thurston refused to comply. It also appears that the late sale of the "Frederick mill property" was made subject to this claim for damages.

Your committee, therefore, in view of these facts, desire to know what the *state* has to do with this matter, and earnestly beg to be discharged from its further consideration.

Mr. Baldwin, from the committee on the organization of towns and counties, to whom was referred the petition of citizens of the township of Watson, asking a change of the name of said township, reported adverse to the prayer of the petition, for the reason that they have received a remonstrance from inhabitants of that township, against said change.

The report was accepted and the committee discharged.

Mr. Pratt, from the committee on engrossment and enrollment, reported as correctly engrossed, "a bill to amend an act entitled 'an act to provide for the issuing and return of venire, the payment of jurors, the appointment of circuit court commissioners, and for other purposes,' approved March 9, 1843," "a bill to amend section six of 'an act to divide the several counties in this territory into townships,' approved April 12, 1827," and "a bill authorizing the receipt of the obligations of this state in payment of university lands."

Mr. D. C. Walker, from the committee on ways and means, to whom was referred the Senate "bill to amend an act entitled 'an act to extend the time for the collection of taxes in the counties of Genesee, Clinton, Shiawassee, Kent, Lapeer and St. Clair,'" reported the same back without amendment, and it was referred to the committee of the whole.

Mr. Livermore, from the committee on the state prison, made the following report:

The committee on state prison, to whom was referred the joint reso-

lution "authorising the agent of the state prison, under the direction of the inspectors thereof, to procure certain machinery to be used at said prison," have had the same under consideration, and have instructed me to report the same to the House, and recommend its passage.

The report was accepted, and the committee discharged, and the joint resolution referred to the committee of the whole.

Mr. Murphy, from the committee on banks and corporations, made the following report:

The committee on banks and incorporations, to whom was referred a "bill to amend an act entitled 'an act to incorporate the Grand Rapids bridge company,'" respectfully report that they have had the same under consideration, and respectfully ask its passage.

The report was accepted, the committee discharged, and the bill referred to the committee of the whole.

Mr. Shurtz, from the committee on roads and bridges, to whom was referred the petition of citizens of Oakland county, for the discontinuance of a certain state road, reported a "bill to discontinue a portion of a certain state road," which was read twice, referred to the committee of the whole and ordered printed.

Mr. R. D. Power, from the select committee appointed for that purpose, reported a "bill to authorize sheriffs to do business in justices' courts, and for other purposes," which was read twice, referred to the committee of the whole, and ordered printed.

Mr. Van Huse, from the select committee appointed for that purpose, reported a "bill to amend section three of an act entitled 'an act to repeal a part of chapter 8, title 5, part first of the revised statutes, and for other purposes,' approved February 17, 1842," which was read twice, referred to the committee of the whole, and ordered printed.

Mr. M. Hall, from the select committee appointed for that purpose, reported a "bill to provide for laying out and establishing a certain state road," which was read twice, referred to the committee of the whole, and ordered printed.

MOTIONS, RESOLUTIONS AND NOTICES.

Mr. Baldwin asked and obtained leave of absence for Mr. Knowlton, for the forenoon.

Mr. D. C. Walker, pursuant to previous notice, asked and obtained

leave to introduce a "bill to authorize James Miller to erect a dam across the Clinton river in the county of Macomb," and Messrs D. C. Walker, Rowland and H. Hall were appointed a committee to bring in the bill.

Mr. Joslin, pursuant to previous notice, asked and obtained leave to introduce a "bill making appropriations on the central railroad," and Messrs. Joslin, H. N. Walker and Pratt were appointed a committee to bring in the bill.

On motion of Mr. Pratt,

The House took up the "bill to establish a land office, to prescribe and regulate the disposition of public lands, and for other purposes," and the question being on filling the blank in the tenth section,

On motion of Mr. D. C. Walker, the bill was laid on the table.

Mr. M. Hall gave notice that on to-morrow he should ask leave to bring in a bill to organize town two north of range seven west in the county of Barry, into a separate township by the name of Maple Grove.

On motion of Mr. Livermore,

The joint resolution fixing the day of adjournment was taken from the table, and the question being on filling the blank in the resolution,

Mr. Pratt moved to insert "twenty-fifth day of February."

Mr. Sheldon moved to insert "nineteenth of February."

Mr. McLeod moved to insert "fourth day of March."

Mr. Shurtz moved to insert the "fifteenth day of February."

The question being on inserting the "fourth day of March," it prevailed.

Mr. Ramsdell moved a reconsideration of the vote by which the "fourth of March" was inserted, which motion prevailed by the following vote :

The report was accepted and the committee discharged.

Mr. Murphy, from the committee on banks and incorporations, made the following report:

The committee on banks and incorporations, to whom was referred the "bill for the incorporation of the Oak Hill cemetery company,"

respectfully report that, an act entitled "an act granting certain corporate powers to the joint owners of burial grounds," approved March 31, 1840, provides for corporations similar to the one under consideration by your committee.

That act provides that any seven or more persons, who may become the joint owners of any piece or parcel of land for the purpose of having the same used as a burying ground, may form themselves into a corporation, under such corporate name as they shall adopt, and, when organized, they shall have all the privileges and powers, and be subject to all the duties and liabilities of a corporation organized according to part one, title ten, chapter three of the revised statutes of the state of Michigan; and the committee therefore ask to be discharged from the further consideration of the bill.

The report was accepted, the committee discharged and the bill referred to the committee of the whole.

Mr. Pratt, from the committee on enrollment and engrossment, made the following report, which was accepted:

The committee on enrollment report as correctly enrolled, "a bill to amend an act entitled 'an act to provide for the issuing and return of venires, the appointment of circuit court commissioners, and for other purposes,' approved March 9, 1843."

Also, "a bill to amend 'an act providing for the final adjustment of all unsettled claims for damages growing out of the internal improvements of the state;'" and that the same have this day been presented to the governor for his signature.

Also, from the same committee, reported as correctly engrossed, "a bill to amend 'an act to provide for the organization of courts of special sessions, and to define their powers and duties,'" and "a bill for the relief of John Silk."

Mr. Dunham, from the committee on printing, to whom was referred the Senate "joint resolution relative to the payment of the contracts for state printing and binding," reported the same back and recommended its passage.

The report was accepted, the committee discharged, and the joint resolution referred to the committee of the whole.

Mr. H. L. Miller, from the committee on ways and means, to

whom was referred resolutions passed by a meeting in Lapeer county made a report which was not accepted.

Mr. Shurtz, from the committee on roads and bridges, made the following report:

The committee on roads and bridges, to whom was referred a petition from inhabitants of Allegan county, asking the passage of a law authorizing the receipts of all the highway taxes on non-resident lands within three miles of said road, to be expended on the same for the term of three years, on a state road running from Allegan to Grandville, respectfully report that they have had the same under consideration and find from several facts that great advantage may be derived by granting the prayer of your petitioners. Therefore your committee beg leave to report the following bill:

Also, a bill from the Senate to authorize the commissioners of highways of the township of Marshall to order and direct where a portion of certain highway labor shall be laid out, report the same back to the House and recommend its passage.

The report was accepted, and the committee discharged, and the Senate "bill to authorize the commissioners of highways of the township of Marshall" to order and direct where a portion of certain highway labor shall be laid out, was referred to the committee of the whole.

The "bill to provide for the construction and improvement of a road running from Allegan in the county of Allegan, to Grandville, in the county of Kent," was read twice, referred to the committee of the whole and ordered printed.

Mr. H. N. Walker, from the committee on public lands made the following report:

The committee on public lands have had the petition of John Parkinson under consideration, and report that it appears from his statement, that he has been unjustly deprived of the land he purchased of the superintendent of public instruction, and thus been unable to continue his payments, under the circumstances as set forth in the petition, the committee have instructed me to report a joint resolution for his relief.

The report was accepted, the committee discharged, and the "joint resolution for the relief of John Parkinson" was read twice, referred to the committee of the whole, and ordered printed.

Also, from the same committee, made the following report:

The committee on public lands have had under consideration the petition of Samuel Morgan, and have instructed me to report a joint resolution for his relief. The reasons which induced the majority of the committee to consider favorably this application, was the fact that appears from the memorial, that it was not the fault of Mr. Morgan that the land was forfeited; he having purchased his interest from another individual, and that person suffered a default upon that portion of the land that he had retained, which drew with it a forfeiture of the land of the petitioner.

The report was accepted, the committee discharged and the joint resolution for the relief of Samuel Morgan was read twice, referred to the committee of the whole, and ordered printed.

Mr. Vickery from the committee on claims made the following report which was accepted and the committee discharged:

The committee to whom were referred the claims of sundry individuals, predicated on certificates, drafts and promissory notes made by Benjamin Porter, acting commissioner of the state prison in the years 1838 and '39, report:

That a portion of said claims were included in the settlement made with said commissioner in December 1839, by a committee appointed for that purpose by the legislature, viz:

Claim of Jno. Rhinefrank,	\$56 15
John Cockburn, two notes amounting to	21 48
S. Stevens,	12 26
Wm. Cowdin,	10 32
Thos. Canigan,	3 00
Thos. Canigan,	13 12
N. S. Skinner,	19 50
Thos. Cullen,	50 00
Thos. Cullen,	63 80
Edward Miller,	23 88

The remaining claims, J. H. Dubors, John Clark, P. Easterly, William Cowdin and M. Fallaher, amounting to 120 dollars and 18 cents, are *presumed* to have been settled, although no positive evidence of that fact has come to the knowledge of your committee.— It is believed that Mr. Porter in executing notes of hand, or other

evidences of debt, exceeded his authority, as agent of the State, and became personally responsible. "An agent constituted for a particular purpose, and under a limited power, cannot bind his principal, if he exceeds his power. Whoever deals with an agent constituted for a special purpose, deals at his peril, when the agent passes the precise limits of his power."

Besides, it is necessary that an agent act in the name of his principal. But Mr. Porter in executing a majority of the obligations above alluded to, did not sign them *officially*. The words "acting commissioner" are affixed to the signature of some of them, but in several instances, this is done in a different hand writing, with different ink, and therefore, it is presumable, at a period subsequent to the making of the contracts. Again: your committee believe that an agent cannot discharge the special trusts reposed in him, by proxy. The maxim is that the agent cannot turn his principal over to another of whom he knows nothing." Now nearly all of these promissory notes, were drawn and executed, not by Benj. Porter, but by "C. R. Ganson," who is to be considered, perhaps, as a sub-agent whom the State is under obligation to recognize.

If the State, then, is not *legally* bound to acknowledge these claims we think it is not equitably bound to do so; and in support of this opinion, we refer to the reports of investigating committees in relation to the State Prison, made in 1839, also to the report made in 1840, on this subject.

All of which the committee respectfully submit, and ask to be discharged.

On motion of Mr. Livermore, the claimants had leave to withdraw their claims.

Mr. Rix, from the committee on the militia, reported "A bill supplementary to an act providing for the more effectual organization and discipline of the militia," which was read twice, referred to the committee of the whole, and ordered printed.

Mr. Murphy, from the committee on banks and incorporations, made the following report, which was accepted, and the committee discharged.

The committee on banks and incorporations to whom was referred the petition of E. D. Post and other citizens of the village of Adrian

asking for an amendment to the village charter, respectfully report, that a bill has already been reported by your committee in accordance with the prayer of the petitioners, and they therefore ask to be discharged from the further consideration thereof.

Mr. McLeod, from the committee on the judiciary, made the following report:

The judiciary committee to whom was referred Senate bill No. 19, "to establish a board of county auditors for Wayne county, and for other purposes," have had the same under consideration, and have instructed me to report back the bill without amendment, and respectfully to recommend its passage.

The report was accepted, the committee discharged, and the bill referred to the committee of the whole.

Mr. Rowland moved to discharge the committee of the whole, from the consideration of the bill and that the same be taken up in the House, which motion was lost.

Mr. McLeod, from the committee on the judiciary, made the following report:

The judiciary committee to whom was referred a Senate bill "to authorize the minor heirs of the late Jared B. Higbee, deceased, to release their claim to a certain tract of land," have had the same under consideration and have instructed me to report back the bill to the House, and respectfully to recommend that it do not pass. The committee report adversely, from the fact that the party aggrieved has a perfect remedy in Chancery, and that no evidence was laid before your committee to warrant them in departing from the general principle that special legislation should be always avoided.

The report was accepted, the committee discharged, and the bill referred to the committee of the whole.

The committee on public lands have had under consideration the petition for the establishment of a branch of the land office at Grand Rapids, and have instructed me as chairman to report that it is inexpedient. Mr. Joslin, from the select committee to whom was referred sundry bills relative to highway labor, &c., reported a "bill relative to the duties of assessors and highway commissioners," which was read twice referred to the committee of the whole and ordered printed.

Mr. H. N. Walker, from the select committee to whom was referred the bill making appropriations on the central railroad, made the following report:

The committee have examined into the provisions of the bill referred to them, and also, into the several laws making appropriations on the works of internal improvement in this state. The balance of appropriations which had not been drawn from the state treasury on the first day of December last, the close of the fiscal year, were as follows, viz:

Central railroad,	\$195,677 89
Clinton and Kalamazoo canal,	17,485 84
Northern railroad,	40,041 20
Grand and Maple river,	6,773 57
Detroit and Grand River road,	1,201 34
Canal at Grand Rapids,	24,780 64
Havre branch railroad,	19,047 66
Improvement St. Joseph river,	26,165 69
Saginaw turnpike,	44 09
Northern turnpike,	40,000 00
	<hr/>
Making a total of	\$361,218 01

(See report of board of internal improvement, page 11.)

By inquiry and examination your committee have learned that of the above appropriations, that of 16,000 acres of land on the Clinton and Kalamazoo canal, and 5000 acres on the St. Joseph River, were the only ones over which the board of internal improvement had any control. The balance of the appropriation not drawn from the treasury in favor of the central railroad, was exhausted by contracts let previous to October last. These contracts will run to maturity on the first of July, (except those for bridges, which run a month longer,) and from the rapid progress made during this winter, the chief engineer believes will be completed in the month of June. There is then no outstanding appropriation subject to the disposal of the board

of internal improvement on the central rail road, and unless one is made the work will undoubtedly cease as early as the first of July on the line of said road.

The other appropriations mentioned, except those made in land, cannot be expended in consequence of the prohibition on the board of internal improvement contained in the joint resolution, approved January 18, 1842. The entire amount of contracts then, which the board are authorized to make at the present time is to the value of 21,000 acres of land, and these contracts are to be made upon the Clinton and Kalamazoo canal, and St. Joseph river in the proportion above mentioned.

The committee report back the bill committed to them without amendment and recommend its passage.

Mr. M. Hall, from the committee on public lands, made the following report:

The committee on public lands, to whom was referred the petition of Michael Furlong; and on examination, that the said Furlong purchased of the state, the north east quarter of the north east quarter of section sixteen, town two south, of range eight west, at eight dollars per acre. That immediately after the purchase aforesaid, the legislature passed a law providing for the reduction of university and school lands, and that the appraisers appointed by said act reduced said land to \$5 per acre. But, that the superintendent of public instruction refused to allow such reduction, alleging that it was forfeited land, although there was no improvement thereon. That the petitioner, though poor, has been enabled to pay the interest on said purchase, up to the present time, but that he will be wholly unable to keep said land, unless the aforesaid reduction can be allowed, and the committee see no good reason why the same should not be granted inasmuch as all the lands upon the said section, have been reduced to five dollars per acre except the land of the petitioner, which appears to possess no more than an average value, and the committee have therefore instructed me to report the following joint resolution:

Mr. H. N. Walker from the committee on public lands, made the

following report which was accepted, and the committee discharged :

The committee on public lands to whom was referred the petition of Henry B. Teed, have had the same under consideration and report : That they have examined into the facts upon which Mr. Teed claims relief from the state, and find them in the main detailed in the annexed communication from the commissioner of the land office.— Mr. Teed has erected a building upon one of the lots worth about two hundred and fifty dollars, but it was erected long after he was notified that their certificates of sale to his wife were void. Your committee cannot believe that the petitioner has any claim on the state, but on the contrary, his whole course of conduct from the beginning bears the marks of an attempt to take and retain property belonging to the university at a sum below its value and should be treated with any thing but favor. He was advised by the commissioner of the land office within five days, that an error had been committed and required to surrender his certificates and receive back the money he had paid but instead of so doing as honesty required, he refused, and has continued in possession and made his improvements with the full knowledge of the invalidity of the sale. Your committee cannot too strongly express their disapprobation of the course pursued by Mr. Teed. Neither law nor equity, justice or expediency require the state to grant the prayer of the petitioner, and your committee therefore ask to be discharged from the further consideration of the same.

Mr. H. N. Walker from the select committee made the following report :

The select committee to whom was referred the petition of John Everet and one thousand citizens of the county of Wayne and Livingston for the improvement of the Grand River road, report that the improvement of said road is important to a very large number of citizens of this state. From the character of the soil your committee are convinced that a plank road is the only one which can be constructed with advantage to the citizens of the said counties. Your committee therefore report a bill to incorporate the Detroit and Grand River plank road company.

The report was accepted, the committee discharged, and the "bill to incorporate the Detroit and Grand River plank road company" was read twice, referred to the committee of the whole and ordered printed.

The following communication was received from the Senate :

To the Speaker of the House of Representatives :

SIR:—I am instructed by the Senate to transmit a “bill to provide for the laying out of a state road and for other purposes,” and the “bill to authorize John W. Ford and other citizens of the village of Jackson, asking for a law legalizing the acts of certain officers of the said village, respectfully report : That it appears to belong more properly to the judiciary committee to report whether such acts should be legalized or not, and they therefore recommend that the same be referred to that committee.

Mr. Shurtz, from the committee on roads and bridges, made the following report :

The committee on roads and bridges, to whom was referred a bill from the Senate to provide for establishing and improving the Pontiac and Grand River road, also a "joint resolution in relation to the construction of a military road from Fort Gratiot to Grand River," have had the same under consideration, report the same back to the House, and respectfully recommend their passage.

Mr. McLeod, from the same committee, made the following report:

The committee of education have had under consideration the petition of Paul Minnis and forty-two others, "taxable inhabitants of school district No. 11, in the township of Ann Arbor, in the county of Washtenaw, and state of Michigan." The petitioners set forth that the district contains five hundred and seventy-five (575) children, between the ages of four and eighteen years, inclusive: That there are twenty-two hundred inhabitants, and taxable property to

the amount of two hundred thousand dollars: That there is no school house in the district, and that the provision of law, restricting them to three hundred dollars in any one year, as the maximum of tax which can be levied in a district, is a serious inconvenience; and in a great measure subversive of the main object of the educational system of the state, so far as relates to this district. They therefore pray that school district No. 11, in the township of Ann Arbor, may be so far exempted from the restrictions imposed in the law referred to, as to allow the qualified voters of the said district to impose such a tax as may be sufficient to lease or purchase a suitable site for a school house, and to erect and furnish the necessary buildings, provided such tax shall not exceed the sum of three thousand dollars.

Your committee, although surprised, that under such a state of facts, but *forty-three* taxable inhabitants out of twenty-two hundred, should be found to petition on a subject of such importance, are yet of the opinion, that some general provision might advantageously be made, to meet such cases as are detailed in the petition, whether real or suppositional. They therefore bring in the accompanying bill, and ask to be discharged from further consideration of the subject.

The report was accepted, the committee discharged, and the "bill to amend an act relative to common or primary schools, approved March 8, 1843," was read twice, referred to the committee of the whole, and ordered printed.

Mr. Baldwin, from the select committee appointed for that purpose, reported a "bill relating to the sale of real estate on execution," which was read twice, referred to the committee of the whole and ordered printed.

REPORTS.

Mr. Vickery, from the committee on claims, made the following report, which was accepted, and the committee discharged:

The committee on claims have had under consideration the following, viz :

Claim of Ezra Williams, for services as quarter master, in the years 1812 and 1813. \$200.

The committee report adversely, there being no salary attached to that office, nor any law authorizing the charge.

Claim of John Barber, clerk of Lenawee county, for fees, in the case of the State of Michigan *vs.* Michael A. Patterson, *et. al.*

Rejected for want of testimony.

Claim of George F. Macy, for balance due for services rendered as clerk of the committee of investigation in 1840, during the recess of the legislature, 93 days. at \$1.50-100, \$144.

The receipt of \$92 allowed by the legislature of 1841 is acknowledged, and this we think should be considered a final settlement, to say nothing about the want of authority of the said committee to employ a clerk at the expense of the state.

Claim of James Forsyth to \$20 dollars paid him, for services as superintendent on the Central railroad in 1837, in the Farmers' bank of Sandstone! and which he could not get off his hands. Rather *hard* claim, which cannot be recognised by *this* committee.

Claim of Morgan Bates, to interest on \$561, from January 1842 to February 1843, the principle having been paid him by the last legislature, which the committee think constitutes a bar to this claim.

Claim of R. W. Ingals, for printing military orders &c., amount-

ing to \$40. This is not a proper charge against the state, and is therefore rejected.

Claim of Blair & Rives, for Daily Globe furnished the Executive department from March 1836, to September 1841, \$55,00.

Also, the same paper furnished the House of Representatives from April 1836, to April 1842, \$60,00.

Both claims are rejected; the committee having no evidence that the paper has been furnished, or of the duty of the state to recognise such claims.

Claim of David French, for discount on 260 dollars paid him on settlement with the auditor general in scrip, at 20 per cent., \$52.

The committee report adversely, on the principle which has invariably governed them in similar cases; that a settlement is a bar to all claims behind it.

Claim of Nathan N. Kindall, for balance due him for groceries and provisions advanced the state in 1840 and '41, on the order of the superintendent of the Southern railroad, for a large portion of which he acknowledges payment. This matter, as your committee understand, having been thoroughly investigated and settled by authority of law.

Claim of Z. Vollum, for pressing sheets of session laws of 1843, House and Senate journals, House and Senate documents, joint documents &c., amounting to \$153,16-100. This job belonged either to the printer or the binder, and was therefore embraced in the contract of one of them with the state. It cannot for this reason be allowed.

Claim of P. Desnoyers, for rent of auditor general's and state treasurer's office in 1840. The committee have not sufficient information to justify them in allowing this claim. It is believed that some room in the state buildings might have been occupied for that purpose.

Claim of Charles Butler, for \$201,75-100, the sum originally claimed by John Prentice, for wood delivered on line of Southern railroad in 1839, and which we are informed has been investigated by the board of internal improvement and rejected; and your committee do not feel authorized, on the limited information they have on the subject, to reverse that decision.

Against all the foregoing claims the committee report adversely, and ask to be discharged.

Also, from the same committee, made the following report, which was accepted:

The committee to whom was referred the claim of John Van Fossen, have had the same under consideration, and instructed me to report a state of facts, as made out by the claimant, which will be found in the accompanying memorial, together with a copy of "voucher No. 3526," which your committee have procured from the office of the auditor general, and which exhibits the amount due him on 26th June, 1843, according to the award of board of Auditors, and the terms of the settlement.

All which the committee respectfully submit, and ask to be discharged from further consideration of the subject.

On motion of Mr. Vickery, the report and documents were laid on the table.

Mr. Joslin, from the committee on internal improvement made the following report:

The committee on internal improvement have had under consideration a bill to amend an act granting certain debtors to the state the privilege of paying the state in state bonds,' &c., approved February 11th, 1842, and report the same back to the House and recommend its passage, for the reason that they believe it may aid in the collection of the claim of the state against the railroad company in said bill mentioned.

The report was accepted, the committee discharged, and the bill referred to the committee of the whole.

Mr. Pratt, from the committee on engrossment and enrollment, reported as correctly enrolled 'a bill making appropriations on the Central railroad;' also, 'a bill to provide for laying out a state road;' also, 'a bill for the appropriation of certain highway taxes for the improvement of the state road leading from Coldwater to Centreville;' also 'a bill relative to the streets of recorded but unincorporated village plats;' and also, 'a joint resolution appointing Z. Curtis a commissioner to lay out a state road;' and that the same have been this day severally presented to the Governor for his approval.

Also, from the same committee, reported as correctly engrossed,

'A bill to amend an act in relation to the fire departments and firemen of incorporated cities and villages of this state,' and,

"A bill to incorporate the Detroit and Port Huron plank road company."

Mr. Murphy, from the committee on banks and incorporations, made the following report:

The committee on banks and incorporations, to whom was referred the petition of N. S. Dewey and others, asking for an incorporation of the Hillsdale and Lenawee county turnpike company, respectfully report that they have prepared a bill which they bring in and respectfully recommend its passage.

The report was accepted, the committee discharged and the "bill to establish the Hillsdale and Lenawee turnpike company," was read twice, referred to the committee of the whole and ordered to be printed.

The Senate "joint resolution relative to a certain sum of money stolen from the treasurer's office of the county of Shiawassee," was read twice and referred to the committee on ways and means.

The Senate "joint resolution relative to a certain bond," was read twice, and,

On motion of Mr. Joslin, the twenty-first rule was suspended and the resolution taken up for consideration.

On motion of Mr. H. L. Miller, the following was added to the resolution:

"Resolved, That this joint resolution shall take effect and be in force from and after its passage."

On motion of Mr. D. C. Walker, the words 'or agents appointed or,' were inserted after the word 'agent.'

The resolution was then ordered to a third reading.

The following communication was received from the Senate:

REPORTS.

Mr. McLeod from the committee on federal relations made the following report :

The committee on federal relations to whom was referred the petition of Luke Mis-kewa-nak and thirty-five others, chiefs and head men of the Ottawa Indians. Also the petition of Henry Smith and fifty other citizens of Hillsdale county, both praying the legislature of

Michigan to take such action as may secure the privileges of American citizenship to a portion of the Ottawas residing on the north-west extremity of the southern peninsula, have given to the subject that consideration which its merits demanded, and have instructed me to make the subjoined report :

The petition sets forth in concise yet impressive language the desire of the Ottawas of L'Abre Croche to enjoy the rights of American citizens.

The reasons enforcing their prayer are cogent. The motives of the petitioners are energetically portrayed, and both the wish and inducement are likely to meet with sympathy and merit consideration from the representatives of a people who occupy the soil which once was theirs.

Your committee sympathize with the native and would fain subserve the wishes of the petitioners.

Their artless tale is soon told.

"They are few in number—the small remnant of a once powerful nation."

Their manners, informed by civilization and ameliorated by the influences of christianity, disqualify them for the rude and unskilled habits of their natural condition. They have erected comfortable dwellings in imitation of the white men, and are maintaining their families by cultivating the soil.

Your committee would respectfully recommend the adoption of the following joint resolution, and ask to be discharged from further consideration of this subject.

The report was accepted, the committee discharged, and the "joint resolution relative to certain Ottawa Indians residing at L'Arbre Croche on Lake Michigan," was read twice, when

Mr. Murphy moved that the report and joint resolution be printed, which was lost.

On motion of H. N. Walker, the rule was suspended and the joint resolution ordered to be engrossed for a third reading.

Mr. Mosher, from the committee on engrossment and enrolment, reported as correctly enrolled a "joint resolution authorizing the commissioner of the land office to issue a certificate to Samuel Morgan for certain land," and that the same has been this day presented to the governor for approval.

Also from the same committee reported as correctly engrossed :

“ A bill to incorporate the Utica female seminary;”

“ A bill to incorporate the Detroit and Grand River plank road company;”

“ A bill to define and protect the rights of married women;” and

“ A joint resolution proposing an amendment to the constitution.”

MOTIONS, RESOLUTIONS, AND NOTICES.

On motion of Mr. Murphy, Charles Butler had leave to withdraw his claim.

Mr. Ramsdell from the committee on the judiciary to whom was referred the Senate “ bill to amend an act entitled an act to prescribe the powers and duties of justices of the peace in civil proceedings,” approved April 9, 1841, reported the same back with a substitute therefor.

The report was accepted, the committee discharged and the bill referred to the committee of the whole.

Mr. Barnard, on leave, presented the petition of Almon Whipple and fifty-two others, citizens of Livingston county, in relation to the construction of a ship canal around the falls of Ste Marie. Referred to the committee on internal improvement.

Mr H. L. Miller offered the following resolution:

Resolved, That the committee of ways and means be, and they are hereby required to report an appropriation for the payment of the clergy who have officiated as chaplains to this House during the present session. Said appropriation not to exceed three dollars per day for each of the officiating clergy.

Mr. Murphy moved to amend by striking out ‘three’ and inserting ‘two;’ which motion was lost.

Mr. Saunders moved to lay the resolution on the table; which motion did not prevail.

The resolution was then rejected, by the following vote :

The Honorable Speaker then rose and addressed the House as follows:

Gentlemen of the House of Representatives:

When I assumed the duties of the chair at the commencement of the session, in obedience to the unanimous voice of this House, I felt most deeply the obligations I was under to discharge the intricate and delicate duties of this station with faithfulness and impartiality, believing that such a course would be productive of good order and tend to the despatch of public business, and finally secure to me your respect and approbation.

The kindness and courtesy that I have received daily from every member of this House, has cheered me on in the discharge of my du-

ty, and I should now be unjust to myself did I not acknowledge that I felt highly gratified for the highly complimentary and unanimous resolution of approbation of my conduct, adopted by this House, it being much more than I even dared hope for.

My success in conducting the business of this session, is owing more to your forbearance and ready counsel in cases of difficulty and embarrassment, and the assistance rendered me by the able and intelligent Clerk at the desk, than to any ability or experience of my own, and for which I now embrace this opportunity of tendering to you and him my sincere acknowledgements.

But, gentlemen, our work is done, and the moment of our separation has arrived, and we shall no more meet here to greet each other as friends and brothers; and the strong feelings of attachment that have insensibly grown up amongst us, can no longer exist, only in memory, and when we go forth from this hall, may each of us have the proud consolation—although there has at times arisen amongst us warm and earnest conflicts of opinion, as to what would best promote the interests of our beloved state—that our councils have been tempered with kindness and good feelings, and that we now part friends. And whatever may be our lot in after life, whether in public or private station, may we all ever be found arrayed on the side of “order, liberty and justice,” ever remembering that upon us rests the most solemn obligation to protect and preserve our institutions, and if we cannot make them better, at least, to transmit them unimpaired to those who may succeed us.

And now, gentlemen, permit me to congratulate you upon the prospect of your immediate return to the bosoms of your families, friends and constituents; and may you find your families and friends in the full possession of life, health and happiness, and may your constituents greet you with the welcome plaudits of “well done, good and faithful servants, worthy the confidence reposed in you.”

It now only remains for me to stretch forth a brother's hand and bid each and every one of you a kind and affectionate farewell. Farewell! Farewell!

On motion of Mr. Livermore, the House adjourned, *sine die*.
